

**Addendum 2
March 13, 2015**

RE: Bid 7930 Annual Ditch Maintenance

Submit no later than March 19, 2015, 2:00 p.m. Exactly Pacific Local Time

1. We are looking to bid on this project and need to know if Right of Way Use Permits and Traffic Control Plans will be required.

Answer:

Right of Way Use Permits will not be required. It is the Contractor's responsibility to determine when traffic control is required and for providing all traffic control services per MUTCD standards. The Contractor must develop a Traffic Control Plan and this Plan must be approved prior to work being performed.

2. If the winning bidder elects to have a 50% retainage held versus obtaining a performance bond, how long are the funds held after completion of work?

Answer:

RCW 39.08.010 states: "On contracts of thirty-five thousand dollars or less, at the option of the contractor the respective public entity may, in lieu of the bond, retain fifty percent of the contract amount for a period of thirty days after date of final acceptance, or until receipt of all necessary releases from the department of revenue, the employment security department, and the department of labor and industries and settlement of any liens filed under chapter 60.28 RCW, whichever is later".
